Steve Strutz opened the meeting with prayer.

Steve explained the purpose of the meeting. The goal is to look ahead to the election next fall for a Superintendent, and to discuss the current paradigm and what we desire for the future.

Derry Long facilitated the meeting. We started with a discussion of the current reality in the Western Conference. The first topic of discussion was the Western Conference office and its functionality.

We then discussed the vision of the Western Conference as it relates to that current reality. Is it functional, realistic, purposeful, etc.?

Annual Conference and other conference meetings were discussed as to their purpose and continued significance.

The culture and the atmosphere of the conference was discussed. How do things “feel” in the Western Conference?

Respectfully Submitted,
Robert Canen
Conference Secretary
